

Site Visit to Kelvinhaugh Street, Student residence

Ogilvie Construction is responsible for the construction of a £33 million student residence in Yorkhill, Glasgow, for developers Bricks Developments.

Built on the site of former warehousing at Kelvinhaugh Street, the project will create a 607 bedroom building consisting of three separate blocks of between 5 and 9 storeys constructed above a semi basement parking space.

One block will be created using traditional steel and lightweight steel framing, with the other two blocks built using a modular container system pre-fabricated and fully fitted out off site, for assembly on site. The building is due for completion ahead of the new student intake in the autumn of 2017.

Location

Kelvinhaugh St, Glasgow, G3 8PR

Date and Time:

Thursday 27th April 2017, 5pm
